

Unique Safety Packages – from £900 plus VAT

At Soteria (UK) Ltd we pride ourselves on providing cost-effective safety solutions to help businesses manage workplace risk. That's why we have developed our Unique Safety Packages designed to keep costs down.

We can design a package for almost any industry which is tailored to your specific requirements and bundled together in one low cost package – so all you need to do is choose the package that suits you and let us do the rest. Call 0844 941 1108 today for your free no obligation consultation.

Our most popular packages:

Office Safety package includes:

- Safety audit with management report and action plan
- Fire risk assessment
- Display screen equipment assessment and procedures
- General office risk assessment

Warehouse Safety Package includes:

- Safety audit with management report and action plan
- Fire risk assessment
- Traffic management and workplace transport risk assessment
- Storage and racking risk assessment

Nursery Safety Package includes:

- Safety audit with management report and action plan
- Fire risk assessment
- General workplace assessment
- Manual handling assessment and procedures

Care Home Safety Package includes:

- Safety audit with management report and action plan
- Fire risk assessment
- General workplace risk assessment
- Manual handling assessment and procedures

Construction Safety Package includes:

- Safety audit or site inspection with management report and action plan
- Development of induction and toolbox talks
- General site safety risk assessment

"...the cost-effectiveness of this package is what really caught my eye. However once it was explained by Soteria that most of the work can be completed in no more than two days it made perfect sense. In the past we have used consultancies that drag out the work thus increasing their revenues and fees, with Soteria I'm glad to say that's not the case because what you see is what you get minus the hidden charges and costs".

Mrs J Smallbone, Managing Director – Marble Compliance

NB. All work above can be completed as part of our [Unique Safety Advisor Service](#).
